Your abstract description must be no longer than 150 words. It must be carefully proofread because we copy and paste your abstract exactly as submitted. You must make sure that the title is in the correct format: bold, sentence case, only proper nouns and scientific terms contain capital letters, species names *italicized*. Your co-authors must be listed in the format as you see above: Last, Initial, and the presenting author must be underlined. Institutional affiliations must be identified with a superscript number. The email address must be of the underlined presenting author. Justification and line spacing should be as presented here and the abstract itself must be single-spaced. If references or citations are used, please use inline citations. For example: (Kavaler et al., Dev., 126:2261-2272, 1999). If you have any questions before you submit your abstract, please contact us at [education@mdibl.org](mailto:education@mdibl.org) or call 207-288-9880 x102.

### Submission format:

**Proofread** carefully and have **all authors approve** the abstract prior to submission. We will not make substitutions after submission.

Use the document upload feature in the [online form](#) provided for the event abstract submissions. **Do NOT send them by email attachment.**
