

KEYNOTE SPEAKER

Linda Bockenstedt, M.D.
Yale University School of
Medicine

OPIOID PANEL

Elissa Chesler, Ph.D.
The Jackson Laboratory

Karen Houseknect, Ph.D.
University of New England

Ian D. Meng, Ph.D.
University of New England

**Leslie M. Ochs, PharmD,
Ph.D, MSPH**
University of New England

Vivek Kumar, Ph.D.
The Jackson Laboratory

INVITED SPEAKERS

April Hill, Ph.D.
Bates College

Michael Kienzler, Ph.D.
The University of Maine

Christopher M. Moore, Ph.D.
Colby College

Colleen O'Loughlin, Ph.D.
Bates College

46th Maine Biological and Medical Sciences Symposium (MBMSS)

April 26-27, 2019

The 46th Annual Maine Biological and Medical Sciences Symposium (MBMSS) is a state-wide gathering where scientists and students have the opportunity to:

- Share research results, exchange ideas, promote collaboration, and network with Maine scientists
- Attend seminars and poster sessions addressing:
 - » The Science Behind the Opioid Crisis
 - » Ecology/Immunology/Cell Biology
 - » Gene Networks and Regulation/Data Science
- Listen to Dr. Linda Bockenstedt's research on Lyme disease and the immune system
 - » Dr. Bockenstedt directs a research program devoted to understanding the pathogenesis of Lyme disease, an infection-related rheumatic disease that also can provide pain management challenges to clinicians treating affected patients

More Information

The symposium will be held at the MDI Biological Laboratory in Bar Harbor, Maine during the spring. An online registration form, abstract submissions and further program details are available at <https://mdibl.org/conference/46th-mbmss/>
